Meitec Group Announces Fiscal 2024 Newly Graduate Engineers Hiring Plan of 950

- Meitec Group will start recruiting activity for science major newly graduates who will graduate from universities and graduate schools, etc, in March 2024

MEITEC CORPORATION (Meitec) and its group company, MEITEC FIELDERS, INC. (Meitec Fielders), announced their plan to hire 950 newly graduates of science major from universities and graduate schools, etc, who will be graduating in March 2024.

As a group of engineers that plays a core role in manufacturing through its people and technology, the Meitec Group has been supplying engineering solution services to more than 4,000 client companies in the business areas of design and development. Through these initiatives, the Group will continue to help customers facilitate technological innovations for the creation of new added value, while also working together with customers to solve social issues.

In addition, the Group is working to achieve sustainable economic growth and provide solutions to social issues by offering the profession-oriented workstyle of serving as lifetime frontline engineers; in other words, by creating a professional labor market.

The Group has 11,934 engineers in total (as of January 31, 2023) including science and technology university and post-university course graduates, etc, and mid-career hires, who work actively as professional engineers for designing and development.

The total accumulated number of engineers of sixty years of age or higher who work or worked on the front line as "lifetime professional engineers" is 544 as of March 31, 2023.
